OSHA Docket
Docket No. H-122
Room N-2625
200 Constitution Avenue, NW
Washington, DC 20210

Dear Sir or Madam,

I think that people should be given the choice of whether they smoke or not. I feel the strict standards that OSHA will require with this regulation are far too strict. If the ventilation systems of the sealed building were property maintained, that would help workers with breathing problems.

Smokers are being treated as second-class citizens and we pay more taxes than any other segment of our society. There is too much government regulation in personal choices already. This regulation is an attempt to drive smokers outside and that is just dangerous and unsafe. OSHA should not promote dangerous work conditions.

Yours truly,

Marylyn L. Howard
